Ernakulam, Kerala, India

About

Dedicated Computer Science engineering student from SCMS School of Engineering, Kochi, with strong technical skills in HTML, CSS, JavaScript, and web development. Known for effective time management, active listening, and team collaboration, I am seeking an opportunity in a dynamic, culturally sound organization where I can contribute meaningfully and grow as a skilled professional.

Education

SCMS School of Engineering and Technology, BTech in Computer Science Engineering Sept 2023 – Present

Rajagiri HSS, Higher Secondary Education March 2023

Experience

Cognifyz Technologies 1 month

- Built responsive and interactive web applications using **HTML, CSS, JavaScript, Bootstrap, and React**.
- Developed backend services using **Node.js and Express.js** and connected applications to **MongoDB** databases.
- Implemented **form validation, authentication, and RESTful APIs**, gaining hands-on experience in full-stack development.

Stem Robotics 2 weeks

- Built dynamic front-end components using React and React Router for navigation.
- Understood how front-end and back-end technologies work together in full-stack development .

Skills

Spoken Languages -English, Malayalam, Hindi.

Technical Languages- C, C++ , Java,SQL, JavaScript.

Technologies - HTML,CSS,React, Bootstrap,Flutter

Skills - Team Collaboration, Time Management,Adaptability

Projects

AI-Resume Analyzer

- Developed a Flask-based web application to analyze and match uploaded resumes with job descriptions using NLP techniques.
- Gained hands-on experience in file handling, text similarity matching, and integrating front-end with backend for real-time data analysis.

Procrastinator Alarm

- Built an interactive React-based alarm clock that stops snoozing only after completing tasks like puzzles or math problems.
- Learned to manage state and timed actions in React using `use-State` and `use-Effect`.
